OM Tactical's OMT-FXIII A Ballistic Armor System is 100% made in the USA. Starting with a Kevlar Based Woven Laminate, that allows us to build a monolithic armor package, that is one of the softest IIIA designs on the market. The OMT-FXIII A achieves NIJ Requirements, Contact Shots, Edge Shots, and close proximity shots as required in the DEA Protocol, and also exceeds the fragmentation protection level of currently fielded US Military Body Armor.

OM TACTICAL WARRANTIES ITS ENTIRE PROTECTIVE ARMOR LINE, INCLUDING OUR BALLISTIC VEST SYSTEMS, TO BE FREE OF DEFECT AND PROVIDE MAXIMUM PUBLISHED PROTECTION UNDER NORMAL USAGE FOR A PERIOD OF 5 YEARS FROM THE DATE OF PURCHASE. CONSTRUCTION OF OUTER VEST CARRIERS, HELMET HARNESSSES, POCKETS, GEAR BAGS, AND ARMOR ACCESSORIES ARE WARRANTED TO BE FREE FROM DEFECT FOR THE SAME FIVE YEARS AS YOUR BALLISTIC PANEL, PLATE, OR HELMET.
